Creative technologist and software engineer who prototypes and builds experiences and the systems behind them, from interactive media and creative AI to enterprise AI products. My work spans software, art, design, and media creation, with a focus on emerging technology, hands-on experimentation, and finding creative ways to help people explore and use new tools.

Creative Practice

Runway | *Creative AI Practitioner*

- Selected as a Runway Student Ambassador during my HCI master's, hosting an educational event featuring generative AI demonstrations, creative workflows, and hands-on exploration.
- Created films and experimental projects for GEN:48 and the Big Ad Contest, attended the 2025 AI Film Festival in New York, and selected for the 2026 Runway AI Hackathon in San Francisco.

Peter Gabriel 50:50 | *Featured Artist*

- Created and produced the 50:50 video for Peter Gabriel's *Digging in the Dirt*, combining generative AI, video production, editing, and experimental visual techniques.

Applied AI Challenge | *Mentor*

- Presented a generative video demo and guided students working on interdisciplinary AI projects.

Creative Exploration | *Creative Technologist*

- TunnelVision • aMiRRoR • Ctrl+Alt+Deplete • Dropped in NY • more at dandegeest.github.io

Professional Experience

Source Allies | *Senior Software Consultant* | 2025–Present

- Build and evaluate enterprise AI applications using LLMs, RAG, MCP, and AWS Bedrock, including AI-powered assistants and document-processing workflows.
- Developed AI evaluation, access-control, and OCR capabilities using Promptfoo, LaunchDarkly, Tesseract, and structured LLM extraction.

Workiva | *Principal Software Engineer* | 2009–2020

- Helped build a metadata-driven platform that scaled from 2 SEC forms to **350+**, creating reusable systems and interaction patterns rather than one-off implementations.
- Served as a platform owner and technical leader, mentoring engineers and guiding architecture across teams.

iMed Studios (Saatchi & Saatchi) | *Senior Design Engineer* | 2006-2009

- Developed custom Drupal applications and interactive digital experiences for pharmaceutical marketing and conference exhibits.

Pioneer Hi-Bred | *Senior Software Engineer* | 2003-2006

- Designed the architecture behind Breeder's Desktop, including a high-performance C#/GDI+ visualization engine and RSS-based plugin deployment framework.

Engineering Animation | *Lead Software Engineer* | 1996-1999

- Created the primary content-authoring language and compiler for Disney/Pixar's *A Bug's Life Active Play*; lead developer on interactive titles for Mattel, Disney/Pixar, and Crayola.

Education Iowa State University - M.S., Human Computer Interaction (2025) | B.S., Computer Science
